

Publications related to the COST 624 benchmark (BSM1)

- February 2002 -

Books

Abusam, A. (2001). *Development of a Benchmarking Methodology for Evaluating Oxidation Ditch Control Strategies*. Doctoral dissertation (ISBN 90-5808-422-1, Wageningen University, Wageningen, the Netherlands).

Copp, J. (2001). *The COST Simulation Benchmark – Description and Simulator Manual*. COST (European Cooperation in the field of Scientific and Technical Research), Brussels, Belgium.

Rosen C. (2001) *A chemometric approach to process monitoring and control. With applications to wastewater treatment operation*. PhD. Thesis. Department of Industrial Electrical Engineering and Automation, Lund University, Sweden. pp. 278.

Vanhooren H. (2001) *Modelling for optimisation of biofilm wastewater treatment processes: A complexity compromise*. PhD. Thesis. Faculty of Agricultural and Applied Biological Sciences. Ghent University, Belgium. pp. 256.

Journal articles

Abusam, A., Keesman, K.J., van Straten, G., Spanjers, H. and Meinema, K. (2002). Evaluation of control strategies using an oxidation ditch benchmark. *Water Science & Technology* (to appear).

Abusam, A., Keesman, K.J., van Straten, G., Spanjers, H. and Meinema, K. (2001). Sensitivity analysis in oxidation ditch modeling: the effect of variations in stoichiometric, kinetic and operating parameters on the performance indices. *J. Chem. Tech. Biotech.*, 76(4):430-438.

Carlsson, B. and Rehnström, A. (2002). Control of an activated sludge process with nutrient removal - a benchmark study. *Water Science & Technology* (to appear).

Copp J.B. (2000) Defining a simulation benchmark for control strategies. *Water 21*, April 2000, 44-49.

Ko, J., Woo, H., Copp, J.B., Kim, S. and Kim, C. (2002). Evaluation of several respirometry-based activated sludge toxicity control strategies. *Water Science & Technology* (to appear).

Pons, M.N. and Corriou, J.P. (2002). Implementation of storage tanks on the COST 624 benchmark: *Water Science & Technology* (to appear).

Pons, M.-N., Spanjers, H. and Jeppsson, U. (1999). Towards a benchmark for evaluating control strategies in wastewater treatment plants by simulation. *Computers and Chemical Engineering Supplement*, 23S, S403-S406, 1999.

Spanjers H., Vanrolleghem P.A., Nguyen K., Vanhooren H. and Patry G.G. (1998) Towards a simulation-benchmark for evaluating respirometry-based control strategies. *Wat. Sci. Tech.*, 37(12), 219-226.

Vanrolleghem, P.A. and Gillot, S. (2002). Robustness and economic measures as control benchmark performance criteria. *Water Science & Technology* (to appear).

Vrecko, D., Hvala, N., Kocijan, J and Zec M. (2001). System analysis for optimal control of a wastewater treatment benchmark. *Water Science & Technology*, 43 (7), pp. 199-206.

Vrecko, D., Hvala, N. and Kocijan, J. (2002). Wastewater treatment benchmark: what can be achieved with simple control? *Water Science & Technology* (to appear).

Conference papers

Abusam, A., Keesman, K.J., van Straten, G., Spanjers, H. and Meinema, K. (2001). Evaluation of control strategies using an oxidation ditch benchmark. *Proc. ICA 2001 vol. 1*, Malmö, Sweden, June 3-7, 2001, pp. 245-252.

Amerlinck Y., Gillot S. and Vanrolleghem P.A. (2001) Benchmarking WWTP control strategies with robustness and economic measures as performance criteria. In: *Proceedings 74th Annual WEF Conference and Exposition*. Atlanta, USA, October 14-18 2001. (on CD-ROM)

Alex, J., Beteau, J.-F., Copp, J., Hellinga, C., Jeppsson, U., Marsili-Libelli, S., Pons, M.-N., Spanjers, H. and Vanhooren, H. (1999). Benchmark for evaluating control strategies in wastewater treatment plants. *Proc. ECC'99 Conference*, Karlsruhe, Germany, August 31 – September 3, 1999.

Buys B.R., Spanjers H. and Patry G.G. (1998) A methodology for evaluating respirometry-based control strategies. In: *Proceedings 71st Annual WEF Conference and Exposition*. Orlando, USA, October 3-7, 1998. Vol. 6, 23-33.

Carlsson, B. and Rehnström, A. (2001). Control of an activated sludge process with nutrient removal - a benchmark study. *Proc. ICA 2001 vol. 1*, Malmö, Sweden, June 3-7, 2001, pp. 229-236.

Cheon, S., Kim, S., Woo, H., Copp, J.B. and Kim, C. (2001). Evaluation of a respirometry-based loading rate control strategy for the activated sludge process using the IWA simulation Benchmark. *Proc. ICA 2001 vol. 1*, Malmö, Sweden, June 3-7, 2001, pp. 261-267.

Copp J. B.J.B. and Spanjers H. (1999) Applicability of a simulation benchmark to respirometry-based control strategies. In: *Proceedings 9th European Congress on Biotechnology*, Brussels, Belgium July 11-15, 1999.

Debusscher D., Vanhooren H. and Vanrolleghem P.A. (1999) Benchmarking two biomass loading control strategies for activated sludge WWTPs. In: *Proceedings 13th Forum Applied Biotechnology*. Med. Fac. Landbouww. Univ. Gent, 64/5a, 127-132.

Ko, J., Woo, H., Copp, J.B., Kim, S. and Kim, C. (2001). Evaluation of several respirometry-based activated sludge toxicity control strategies. *Proc. ICA 2001 vol. 1*, Malmö, Sweden, June 3-7, 2001, pp. 237-244.

Oosterhuis M., Spanjers H. and Hvala N. (1999) Evaluation of a control strategy for biological P-removal in an SBR. In: *Proceedings of the European Control Conference ECC'99*, August. 31-September. 3, 1999, Karlsruhe, Germany. (on CD-ROM).

Pons, M.N. and Corriou, J.P. (2001). Implementation of storage tanks on the COST 624 benchmark: *Proc. ICA 2001 vol. 1*, Malmö, Sweden, June 3-7, 2001, pp. 253-259.

Pons, M.N. and Corriou, J.P. (2001). Implementation of an equalisation tank on the COST 624 benchmark. *Proc. 8th International Conference on Computer Applications in Biotechnology (CAB 8)*, Québec, Canada, June 24-27, 2001.

Pons, M.-N., Jeppsson, U., Copp, J., and Spanjers, H. (2001). Benchmarking of control strategies in wastewater treatment: the four-year story of the COST benchmark: Keynote lecture. *Proc. 8th International Conference on Computer Applications in Biotechnology (CAB 8)*, Québec, Canada, June 24-27, 2001.

Pons, M.N., Spanjers, H. and Jeppsson, U. (1999). Towards a benchmark for evaluating control strategies in wastewater treatment plants by simulation. *Proc. ESCAPE'9 and PRES'99 Joint Symposium*, Budapest, Hungary, May 31 – June 2, 1999.

Vanhooren H., Yuan Z. and Vanrolleghem P.A. (2001) Benchmarking nitrogen removal suspended-carrier biofilm systems using dynamic simulation. In: *Proceedings 3rd IWA International Specialised Conference on Microorganisms in Activated Sludge and Biofilm Processes*. Rome, Italy, June 13-15 2001 (on CD-ROM).

Vanrolleghem, P.A. and Gillot, S. (2001). Robustness and economic measures as control benchmark performance criteria. *Proc. ICA 2001 vol. 1*, Malmö, Sweden, June 3-7, 2001, pp. 213-220.

Vanrolleghem P.A. (2001) Model simulation for improved operation and control of wastewater treatment plants. In: *Proceedings Seminaire La Modélisation en Assainissement: Remise en Cause des Pratiques ?* Strasbourg, France, January 24 2001. pp. 23.

Vrecko, D., Hvala, N. and Kocijan, J. (2001). Wastewater treatment benchmark: what can be achieved with simple control? *Proc. ICA 2001 vol. 1*, Malmö, Sweden, June 3-7, 2001, pp. 221-228.

Other publications

Debusscher D. (1999) Een procedure voor evaluatie van op respirometrie gebaseerde controlestrategieën voor actiefslibprocessen (A procedure for the evaluation of respirometry based control strategies of activated sludge processes). Engineers Thesis. Faculty of Agricultural and Applied Biological Sciences. Ghent University, Belgium. (in Dutch).

Haemelinck S. (2000) Evaluatie van sturingsalgoritmen voor de verwijdering van stikstof uit afvalwater (Evaluation of control algorithms for removal of nitrogen from wastewaters). Engineers Thesis. Faculty of Agricultural and Applied Biological Sciences. Ghent University, Belgium. pp. 144. (in Dutch).

Jacquet P. (1999) Een globale kostenfunctie voor tuning en evaluatie van op respirometrie gebaseerde controle algoritmen voor actiefslibprocessen (An overall cost function for tuning and evaluation of respirometry based control algorithms of activated sludge processes). Engineers Thesis. Faculty of Agricultural and Applied Biological Sciences. Ghent University Gent, Belgium. (in Dutch).
